
Detonate 1.2 Free Full EXCLUSIVE Version

February 6, 2565 BC - Detonate - a sandbox for the demolition and creation of buildings. Detonate includes realistic real-time fire spread and many new projectiles...

â—° â—° Detonate is a demolition and building creation sandbox. Detonate includes realistic real-time fire spread and many new projectiles that can be used on any surface and even in the air. The game has several playable areas, including destructible buildings, parks, and golf courses.

Alternatively, there are places that cannot be destroyed (such as houses and bridges). You can play alone or with friends on the same server.
