Schneider Electric Website. Schneider Electric USA Website Für SoMachines use, stellen wir Ihnen Ihre hardware spezifische Hardware Configurations erstellen, anhand der Bilddatei, also auch die Bilddateien einer Hardware Bericht und einer OEM Bauplan. The LED Setting procedure in SoMachine lets you collect more information than LEDs by monitoring the color of the LEDs and the output voltage of the LED driver. The parameter LED \ Device Name can also be used to monitor these values. So when the LEDs are red they must check the values of the variables LED and LEDDriver. Schneider Electric Web Site: Click on the privacy policy of the Schneider Electric website for details on the processing of your personal information. This website uses cookies to deliver better user experience, track and display information for advertising and product selection. Want to find out more about our use of cookies? Learn more about cookies. Find out more. It provides the following basic functions: Switch, dimmer, relay and lamp off parameter. So Schneider, Schneider Electric, Model, manufacturer, dealer, distributor, Schneider Electric. Schneider Electric America. Schneider Electric USA Website. Schneider Electric USA Website. Schneider Electric USA Website. The fields are defined as follows: - Device Name - Device Model Name - Hardware Configuration Name - Hardware Configuration Description - Hardware Configuration Specification For this purpose the software can be set up for five hardware configurations, with five different LED settings: - Off - Off / Colors on / Black on - On / Colors on / Black on - On / Colors off / Black on - On / Colors off / Black on The hardware configurations can be individually configured or adjusted. As well as the possible colors that can be set. The parameters LED \ Device Name, LED \ Device Model, LED \ Device Hardware and LED \ Device Specification can also be used to determine the values. If you use a device like the LED \ Device Model, you can create a pointer to the LED \ Device Model and then use the parameter LED \
