1.Screen Recorder ghost can capture desktop screen as full screen,window screen or small screen. 2.It can record video and audio from multiple sources,such as webcam,microphone,videogame microphone,remote capture,desktop computer screen,web movie and online chat video. 3.It can directly record stream online video,remote video and webcam. 4.Support screen record in windows 7,windows 8,windows 8.1,windows 10 and can also capture the network TV screen (HDMI TV). 5.You can see all recorded screen, which can be replayed as a video. 6.You can edit all recorded screen. 7.You can choose whether

---

to save the recorded files to the local hard disk, or to record them directly to the server. 8. It can work well with other programs to capture and record all their output. 9. Screen Recorder Ghost supports many computer monitors and can record both the screen and audio of your computer's sound card, whether your computer has an integrated microphone or not. 10. Screen Recorder Ghost can also be used as a remote-controlled video recording system, it can capture webcams, VGA cameras, game cams and other video sources. Screenshot: I have been trying for more than a week to send video emails from Skype video call. Skype recently changed their system and now it is a mess to do. I found this article and tried it but with no success. This work great. You can record everything on your

---

screen! This is so cool. I'm not a Mac user, but I tried it on my Windows 8.1 laptop and it works great. The camera always looks good on Windows 8.1, so that wasn't the problem. But on my Macbook Air it looked terrible. It always looks like it's being recorded from a laptop. It always looks jumbled up and you just see parts of the desktop being recorded. I have tried Skype, QuickTime and anyother programs, but nothing looks good. So, this program works. I found this program when I was looking for screen capture. It is the best screen capture for recording videos from your PC. I have used it for over a year now. This has got to be the best screen capture software. I have tried a few screen recorders and most of them sucked. This one worked on the first try! It is so easy to use. I
