Thanks for watching. If you have any comments or suggestions, then write them in the comments. That's all for now, see you soon and thanks. Feel free to comment here on the website: facebook.com/Deckoptimizer The game Poker Rules: You are a good poker player. Know a lot about poker

### What's New in the?

SimpleMath is an application of developing the ability of learning arithmetic operations. As in other games or applications, this is where if you begin with the number 1, then the process becomes 2, 3, 4, 5, 6, 7... In this application, you can see that the numbers increase only by 1. For example, the first number is 1, which is 1 plus 1, which equals 2. To continue, you must multiply 2 by itself. For example, to multiply two numbers:  $1 \times 1$ . The second number is 2, so you can multiply 1 by 2. This is  $2 \times 2$ , which equals 4. Then, you multiply 4 by 1 and this is  $4 \times 1$ , which equals 4. The application will keep on multiplying numbers, will keep on making the numbers increment, until you reach the stage of a random number. The application is called "SimpleMath," "Simple" means simple mathematics, and the application is "Math." Many other applications or games will have a little activity that may be difficult to understand, but in this application the user is asked what action they do with the numbers. If you want to test your skills, go ahead and try all the levels, and your math ability will surprise you! Note: Please give us a five star rating, only when you are totally satisfied with the application. Also please leave a post review, which is as valuable as giving us a five star rating. Users review Related Apps The application offers a quiz that you can take to test your knowledge. The quiz is divided in two parts. First, there are questions to check your general knowledge. If you pass, there are additional questions, subdivided in two types. And the second quiz are the questions to measure the students' skill. The questions are about number... Binary Countdown is a calculator that allows you to test your skills to add, subtract, multiply, and divide between 1 and 2 or between 1 and 10. It also allows you to add, subtract, multiply, and divide between 1 and 9 and between 1 and 100. The application was designed for educational use and simple fun, so you can use this... One of the highlights of this program are the games, the discovery of the objectives. The student can guess the sum of two figures and a multiplier in any combination he wishes. Your goals are complete in all your activities. If you have ever participated in

---
